

GMDN Agency – Using GMDN as a Member

This guide helps you find the 5 digit GMDN code for your product.

To Login

1. Open the GMDN website in your browser – www.gmdnagency.com
2. Enter your 'log in' and 'password', that you selected when you first registered for membership of GMDN
3. If you have forgotten 'log in' and 'password' please contact us.

To find the 5 digit GMDN Code

The database contains over 20,000 defined terms for medical devices. There are 3 types of term that the database contains:

- Preferred Terms (P terms) – used for identifying devices for regulatory purposes.
- Template Terms (T terms) – collections of terms, used for finding P terms.
- Synonym Terms (S terms) – historic or common names of devices, used for finding P terms.

1. Select the 'Search' function. Here you can search by several ways, for example:
 - Search Text – All the words
 - Search Text – Any of the words
 - GMDN code or old nomenclature (i.e. UNDMS, NKKN, etc), if known
 - Identified P,T or S classification
2. Enter the data in the search box and click on 'Search' at the bottom of the page.
3. The list of results can be modified by refining your search.
4. When the most appropriate P term has been found for your product, select the  **Add To Basket** icon.
5. The message box 'Term was added to the basket. Would you like to proceed with purchasing?' and click OK.
6. The term is added to your Basket.
7. Select the term and click on 'Get Codes'.
8. The message box 'To confirm your selection please...' and click on 'Add to my GMDN'.
9. The term will be added to your 'My Terms' list. – See 'My GMDN' menu.
10. The 5 digit GMDN code P XXXXX will be displayed against the P term and definition.

You may select as many codes as required through this route, providing you have not exceeded your allowance. Additional code packs can be ordered through the website.
